

# Hard Landing - Draitspitzikad

*The following story, **Hard Landing**, is a short vignette set during the early days of the **Dzaqtlas**, the “Great Death” plague that brought ruin to Zhdant and nearly left the planet devoid of human life.*

[illegible]

The harsh deceleration that had shoved the three of us deeply into our couches let up, replaced with near free-fall as our lander fell through the middle reaches of the atmosphere.
