THE ZHODANI LANGUAGE AND CULTURAL INSTITUTE

□セと スヨ ≥Qと低えQ ヨボダス なべまとえな 当Q低戻人≥人、ヨボダ
Dlolpliki, Zhdant

Introduction

Zdetl is the official language used throughout the Zhodani Consulate in the age of the Third Imperium. While its precise origins are unknown, it is commonly accepted that it developed in the wake of the Final War when the surviving humans on Zhdant found themselves bereft of their Ancient masters for the first time. Over the millennia, Zdetl evolved gradually into its modern form, which was universally adopted as the official language in the 300th Olympiad, the Imperial year -6055.

A distinguishing feature of modern Zdetl is its emphasis on standardization in morphology, grammar, syntax, and structure. Zhodani culture is fundamentally assimilative in nature; in other words, the Consulate is not interested in conquest by force but by acculturation. To this end, the Consular language has been simplified over time to make it easy to teach and learn (or at least less difficult than other languages). This does not mean that Zdetl lacks complexity – like the ancient Terran game of Go, its fundamentals can be learned in minutes, but it can take a lifetime to truly master, and few non-native speakers ever reach that level.

This dictionary is not intended to be complete; indeed, this would be an impossible task as words are always being added to the overall Zdetl lexicon. Instead, it is meant to be a starting point for learning the language and vocabulary. As such it is a companion to the Zhdantia Language and Cultural Institute's other publications, **Beginning Zdetl** and **Conversational Zdetl**. The first section contains a brief discussion of the grammar of Zdetl; the rest of the book is a Zdetl-to-Anglic word list, organized by the Zdetl phonemes in approximate Anglic order for easy reference.

While the ZLI research staff have endeavored to produce an accurate and precise publication, errors and inconsistencies are often unavoidable. Questions, requests, and suggestions may be addressed to the ZLI at the link below.

Pronunciation Guide

The phonemes (sounds) of Zdetl are differentiated and distinct and follow predictable patterns. Multiple vowels rarely appear together, and syllables consist of *Vowel* (V), *Consonant-Vowel* (CV), *Vowel-Consonant* (VC) or *Consonant-Vowel-Consonant* (CVC) groupings.

Words are accented, and the placement is usually predictable. The accent usually falls on the penultimate syllable. If the word is two syllables, the accent falls on the final. In the case of longer words there may be a secondary accent on the first syllable.

kasha-	・ 2代土代< something phys	<i>prefix</i> sical	prefix indicating a container, usually for
ro-	ቸቢ∢	prefix	a repetition of an action

Grammatical Concepts

Sentence Structure

The basic sentence structure of Zdetl is object-leading; in other words, the word order is *Obj - Verb – Subj*.

Fevr anzh moch i tio'd.

(A book is being read by you.)

Adjectives precede the noun they modify: Adj - Obj - Verb - Adj - Subj.

Vrien`a ka`fi tla`pa·ens ka`yo·tle ziefr`i.

(Hot coffee is being drunk by the pretty woman.)

The same rule applies to adverbs: Obj - Adv - Verb - Subj.

Fevr`anzh a`chan·e mo`chi·tens.

(A book is still being read by her.)

The Indirect object follows the subject: Obj - Verb - Subj - Ind Obj.

Tlan`qil ki`lo·ik ai o'd.

(A letter was written by me to you.)

Sentences using verb infinitives take the following order: *Obj – Verb Inf – Verb – Subj.*

Mi`to·tle' i`ko·tik. (To dance desire I.)

Prepositions precede the word they modify the same way adjectives and adverbs do: Prep - Obj - Verb Inf - Verb - Subj.Kon ens mi`to·tle' i`ko·tlik.

(With her/him to dance desire I.)

Interrogative statements are either by the question word **JDO**: **JDO** ka`fi i`ko·tlio'd?

(Do you want coffee?)

They can also include the word suffix AQLE:

Ka`fi i`ko·tlio'dAQLE?

(Do you want coffee?)

Conjunctions are placed between the nouns they refer to (i.e., Do you want coffee or tea: O - Con - O - V - S (JDO Coffe OR tea/desire/you)

Jdo ka`fi pra kotl i`ko·tlia de?

Jdo ka`fi *pra* **kotI i`ko∙tlia de?** (Do you want coffee OR tea?)

basic grammar

Posession and Agency

In Zdetl, *agency* or *ownership* of an action (verb) or noun is indicated by appending a *pronoun suffix* to the word:

1st person singular	-ik	火2
1st person plural	-(d)ish	√(山)人土
2 nd person (all)	-o'd	√ر^كا
3 rd person (all)	-ens	‹ ሂ፭

The above forms indicate actions or agency in the *present tense*. Other aspects are indicated using an *aspect modifier*:

Past	daz	
Future/Potential	chtenz	三く乙
Habitual/Continual	tsench	ととぞ
Completive/Punctual	toz	∠را⊐
Imperative	zhda	コス
Conditional	ek	₹2
Optative (hopeful)	pri`	压入^
Participle (is *-ing)	-enzh	₹
Perfective (has *-ed)	-еј	ベ とし

The aspect modifiers follow the verb in the following ways:

Did you want coffee?

Kafi kotlio'daqle dazenzh?

≥ベヘス | ≥にとえに^コベ≤ャーコにコャづ/

Will you want coffee?

Kafi kotlio'daqle chtenzenzh?

>ベヘス > ヘと人の ^ といると 王々づと当/

Had you danced? **Mitlo'daqle dazej?** なくとℂ^ロベミャーロベコャリ/

And so forth. The grammar presented in **Beginning Zdetl** is still valid and recognizable Zdetl; the forms presented here are supplemental and considered more "formal" than the simplified versions.

For more complete grammar instruction, please refer to **Conversational Zdetl** from the ZLI. You can also find additional information at https://wiki.travellerrpg.com/Zdetl_(language).

En 包 noun a small, piranha like creature found in the **Zhdifrzdievr Toyak**, the river that feeds the **Zhdantpreql** Bay. It swims in schools of 1D x 100 and on its own, the fish is deceptively small and harmless. However, it is an opportunistic ambush predator that can strip a **yonchobo**-sized animal to the bone in a few minutes. It is a major predator of the **dlezhdainakl**, the

fearsome coconut crab found in the same region.
